Closure Type: Stelvin

WINE STORY:

This deeply personal brand was founded when Alie relocated from Brooklyn to the North Fork and began a new life chapter. Making wine has been an impetus for self-discovery, and this series is a meditation on all life's possibilities, especially when one opens herself up to new experiences and change. These premium wines realize the highest potential of North Fork fruit through a four labels, each monikers for the virtues we carry through life's journey: Serendipity (white), Persistence (red), Courage (rosé), and Gratitude (a white pétillant naturel).. BEHIND THE NAME AND DESIGN : This name combines Alie's initials with if, a word that has been a guiding principle in her career. By listening to the answers if summons — what if, if only — life has led her to places she never imagined, yet exactly where she should be.
