Closure Type: Cork

## WINE STORY:

Hello - we're here to drive sales for our distributor and retail partners in the under \$15/bottle wine category. Our data shows this brand will pull off shelf and also engage shoppers with 25% of profits supporting individual women. We bring you a brand with strong visual point of purchase impact and appeal, that will help distributors and retailers sell more product. Our Chardonnay and Cabernet Sauvignon are both under \$15 retail and the flavor profiles have received silver medals. We look forward to working together! >>> About Sarah Christina: My name is Sarah Christina. As a passionate problem-solver and advocate of kindness, I founded Sarah Christina Vineyards and give 25% of profits to women in hardship. It is an honor to have you join me in accomplishing this goal, in bringing purpose to our every day lives and in supporting women that need our help the most. The fine flavor of our wine comes from grapes that are sustainably grown. They are grown under the stewardship of a family of vintners who, for over five generations, have respected and nurtured their land, allowing it to thrive as a natural habitat for plants and wildlife and healthy, flavorful grapes. This wine is for celebrating life - a dinner with friends, a picnic, a birthday, a new love, an old love, a true love. We toast that you have a long, happy life and much friendship. Sarah Christina & Friends >>> About the wine - Chardonnay: The Sarah Christina Chardonnay is a traditional wine that comes from fruit that is sustainably grown under proper stewardship of the land. The vineyards that produced the fruit for this wine benefit from the deep and rich soils that make-up the California Appellation. The fruit matures in warm sunny days and cool nights as a result of gentle breezes coming from the Pacific Ocean. The fruit is cultivated to have a balance between fruit character and structure. The fruit was harvested at the peak of flavor and crushed and fermented in stainless steel vessels. The blend was then created and prepared for bottling. >>> Tasting Notes - Chardonnay: Our 2017 Chardonnay is classically and elegantly appointed. A delicate golden light straw color, with floral notes, offering soft and lush tropical fruit wrapped around a medley of green apple, lemon and lime, lifted by a hint of vanilla and touch of spice. This one is perfect for all Chardonnay lovers, and those who appreciate a fresh white wine that can stand by itself or pair well with your favorite lighter recipes. >>> 25% of profits benefit women!
